

[BUG] Security Vulnerability #15944

Closed #15970

oxqnd opened on May 29, 2025

Issues Policy acknowledgement

☒ I have read and agree to submit bug reports in accordance with the [issues policy](#)

Where did you encounter this bug?

Local machine

MLflow version

.

System information

.

Describe the problem

Security issue reported via email as instructed in the MLflow Security Policy.

Tracking information

Code to reproduce issue

.

Stack trace

.

Other info / logs

No response

What component(s) does this bug affect?

☐ area/artifacts : Artifact stores and artifact logging

- ☐ `area/build` : Build and test infrastructure for MLflow
- ☐ `area/deployments` : MLflow Deployments client APIs, server, and third-party Deployments integrations
- ☐ `area/docs` : MLflow documentation pages
- ☐ `area/examples` : Example code
- ☐ `area/model-registry` : Model Registry service, APIs, and the fluent client calls for Model Registry
- ☐ `area/models` : MLmodel format, model serialization/deserialization, flavors
- ☐ `area/projects` : MLproject format, project running backends
- ☐ `area/scoring` : MLflow Model server, model deployment tools, Spark UDFs
- ☐ `area/server-infra` : MLflow Tracking server backend
- ☐ `area/tracking` : Tracking Service, tracking client APIs, autologging

What interface(s) does this bug affect?

- ☐ `area/uiux` : Front-end, user experience, plotting, JavaScript, JavaScript dev server
- ☐ `area/docker` : Docker use across MLflow's components, such as MLflow Projects and MLflow Models
- ☐ `area/sqlalchemy` : Use of SQLAlchemy in the Tracking Service or Model Registry
- ☐ `area/windows` : Windows support

What language(s) does this bug affect?

- ☐ `language/r` : R APIs and clients
- ☐ `language/java` : Java APIs and clients
- ☐ `language/new` : Proposals for new client languages

What integration(s) does this bug affect?

- ☐ `integrations/azure` : Azure and Azure ML integrations
- ☐ `integrations/sagemaker` : SageMaker integrations
- ☐ `integrations/databricks` : Databricks integrations
