

[Ray Core] Redis password got logged when starting the client server #50266

Closed

#50409

letaaj opened on Feb 6, 2025

Contributor ⋮

Description

```
logger.info(f"Starting Ray Client server on {hostport}, args {args}")
```

```
ray/python/ray/util/client/server/server.py
Line 895 in e3680f7
895     logger.info(f"Starting Ray Client server on {hostport}, args {args}")
```

If redis password is passed as an argument, it will be logged and could potentially leak the password.

Use case

No response
